# Implementation Support

## IMSE Refresher - Live

The IMSE Refresher courses are available for those who have already completed IMSE's Comprehensive Orton-Gillingham Plus and/or Morphology Plus 30-hour training and are great for tuning up your IMSE OG skills. These refreshers follow a standard format. Refreshers are available in three formats: virtual, in-person, and asynchronous videos.

\*Refresher maximums - Virtual 48 participants and In-Person 65 participants

## IMSE Refresher - Asynchronous

The IMSE Asynchronous Refresher courses are meant for those who have already completed IMSE's Comprehensive Orton-Gillingham Plus or IMSE's Morphology Plus 30-hour trainings. Whether you've been in the classroom for six months or a few years, these courses are perfect for tuning up your IMSE OG skills.

Asynchronous Videos are available for six months from the time of purchase.

## Group Coaching

After completing one of IMSE's 30-hour courses, participants can receive support from an IMSE Instructor. Our coaching sessions are designed to meet the needs of the participants as they work to implement IMSE Orton-Gillingham strategies with fidelity. Coaching sessions are offered in two different formats, virtually and in-person.

**VIRTUAL**

3 or 6 Hours  
\$900/\$1800

**IN PERSON**

6 Hours  
\$2500 per day +\$1500  
travel costs (\$500 per  
additional day)

**COMPREHENSIVE  
OG+**

6 hours  
\$100

**MORPHOLOGY+**

3 hours  
\$75

**VIRTUAL**

\$500 per hour

**IN PERSON**

2 Day Minimum  
\$3000 per day + \$1500  
travel cost (\$500 per  
additional day)

## Comprehensive OG+ Administrator Course

This structured literacy course provides administrators with the information needed to support educators as they implement the IMSE OG approach. Through instructor presentation modules and videos of the approach being implemented with students, administrators will deepen their understanding of IMSE's enhanced Orton-Gillingham methodology and the tools necessary for implementation.

The course modules will help administrators:

- Monitor instruction fidelity
- Providing support
- Make decisions about how the IMSE OG+ approach and structured literacy will be implemented in their classrooms and district.

This course is available in both Asynchronous and Live Virtual Formats.

## Educational Assistant Course

The course is designed for educational assistants working with teachers who have completed IMSE's Comprehensive Orton-Gillingham Plus 30-hour training. IMSE's Educational Assistant Course is a hands-on, interactive, and personalized class that provides an understanding of IMSE's enhanced Orton-Gillingham methodology and the tools necessary to support its implementation in the classroom. This is an 18-hour course, offered both in-person and live virtual.

## Intervention and Support for Struggling Readers

The IMSE Intervention and Support for Struggling Readers Course is a 9 hour asynchronous course designed to provide educators who have completed IMSE's Comprehensive Orton-Gillingham Plus Course with knowledge and strategies for intensifying instruction for students who are having difficulty learning to read and spell. This course is an add-on option for participants who have completed the 30-hour Comprehensive OG Plus Course.

\*All in-person support sessions are subject to trainer availability.

# Certification Programs

IMSE offers a variety of certifications to educators who take part in an IMSE or IMSE Impact training. Educators can pursue their Fidelity Certificate, participate in a practicum for the IMSE Impact Orton-Gillingham Certification, or go through IMSE's District Instructor Program.

## IMSE Fidelity Certificates (15 hours) – \$375

The IMSE Fidelity Certificate courses support educators and districts in ensuring that IMSE Comprehensive OG+ and IMSE Morphology+ strategies are implemented with fidelity. Participants advance through modules that include implementation videos in various settings, additional strategies and lesson variations that can be used in their current reading program, step-by-step assessment administration videos, and more.

In addition to being stand-alone courses, the Fidelity Certificate courses can be considered a jump-start for an IMSE Practicum. The Fidelity Certificate courses are required components of the IMSE Practicums but can also be completed before a practicum begins.

\*If participants are accepted into an IMSE practicum within two years of completing the corresponding Fidelity course, the \$375 fee will be deducted from the practicum fee, and the 15 hours will be applied to the practicum.

## IMSE Orton-Gillingham Certification (6-12 months) – \$2,350

Educators who become certified in IMSE's Orton-Gillingham gain a life-long investment in their literacy education and add a rich layer of expertise to their teaching skills. IMSE OG Certification is offered through two different practicums: the IMSE Comprehensive Orton-Gillingham+ practicum and the IMSE OG Specialist practicum.

Candidates who complete both the IMSE Comprehensive/Comprehensive Orton-Gillingham Plus practicum and the Intermediate/Morphology Plus practicum will receive an IMSE Specialist certification.

## IMSE's District Instructor Program (6-12 months) – \$4,750

With an IMSE District Instructor on-site, districts benefit from reduced rates for future training courses while ensuring continuous growth and fidelity of implementation. Your IMSE District Instructor can also provide on-site refresher sessions and consultations, maximizing the ongoing professional development of your educators.
